CAREER OBJECTIVE

Full-Stack Developer with 1+ year of experience in React, Node.js, MySQL, and MongoDB. Skilled in building responsive UIs, secure backends, and end-to-end web solutions.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, SQL

Frameworks: Angular, Tailwind, React.js, Node.js, Express,

Databases: MySQL, MongoDB

Tools: Git, VS Code, Postman

Soft Skills: Communication, Teamwork, Attention to detail

EXPERIENCE (1+ Year Experience)

Full stack developer

Whiz fortune Software Solution | Pune | Feb 2025 – Current

Worked on diverse full-stack projects including e-commerce platforms, car selling websites, and ERP solutions. Built responsive frontends with React & Tailwind CSS and scalable backends using Node.js & MySQL. Implemented secure authentication, role-based access, automated emails, and developed dashboards to enhance usability and business efficiency.

Software developer

Borgward Technology India Pvt. Ltd. | Pune | Aug 2024 – Feb 2025

Built full-stack applications using React, Node.js, MySQL, and MongoDB, where I worked extensively on developing UI components with React (using Hooks and Props) and integrating them with backend APIs. My experience also includes writing SQL queries.

PROJECTS

- **Simian Training ERP (Live project)**
 - Built full-stack ERP system for training centers with authentication, role-based access, and CRUD operations.
 - Developed responsive UI in React + Tailwind; backend in Node.js + MySQL.
 - Integrated Nodemailer for password reset & account communication.
 - Added admin dashboard for real-time monitoring.
- **Indoor plants Website (Angular + Tailwind CSS)**
 - Created a responsive plant-themed website using Angular and Tailwind CSS.
 - Designed pages like Home, About, Services, and Popular using reusable components.
 - Implemented smooth scroll-based animations using Scrollreveal.
 - Added interactive sliders and transitions using Swiper.js.
